

## Advancing Your Nursing Degree: The Experienced Nurse's Guide to Returning to School

### Registered nurses

A registered nurse's day will be spent planning and carrying out nursing care in a clinical area, having therapeutic conversations with health care consumers and their whānau/families, monitoring and recording essential changes in health care consumers conditions, giving medication and intravenous drugs, educating health care consumers and their whānau/families about health care needs, working within and contributing to multidisciplinary teams, ensuring accurate health records are maintained and promoting health, and advocating for health care consumers and their whānau/families.

Registered nurses work across a range of health care settings, including but not limited to:
