

## **Big Data-Enabled Nursing: Education, Research and Practice (Health Informatics)**

The TOP Guidelines are a recognized standard in publishing and funding.

With over 5,000 signatories, the TOP Guidelines are a widely used tool for implementing open science practices.

Journal signatories have expressed their support of the principles of openness, transparency, and reproducibility, expressing interest in the guidelines and commit to conducting a review within a year of the standards and levels of adoption.

Organization signatories have expressed their support of the principles of openness, transparency, and reproducibility and encouraging associated journals to conduct a review of the standards and levels of adoption.

Please note that as of the end of 2020, we are no longer adding signatories to this list. If you are interested in implementing TOP, please see the corresponding tab on this page, as well as TOP Factor.
