

Evidence-based Practice in Nursing (Transforming Nursing Practice Series)

If you ask a boy "What is twice two?" and the boy says "four," you take that as prima facie evidence that the boy knows what twice two is.

"And, on behalf of the Yard, I'm much obliged to you, though I'm bound to confess I can't at present see the faintest possible loop-hole in the evidence , but you always were a marvel!

We have evidence of almost every conceivable kind, organic and inorganic, that within a very recent geological period, central Europe and North America suffered under an Arctic climate.

"I am not talking of the evidence now, I am talking about that question, of their own idea of themselves.

You may persuade yourself for the moment that you do, but after a while you will have to go by the evidence . You won't be able to help yourself.

Even the clearest and most perfect circumstantial evidence is likely to be at fault, after all, and therefore ought to be received with great caution.

Rook having completed his evidence , the police authorities were the next witnesses examined.

The trial of Partridge, the schoolmaster, for incontinency; the evidence of his wife; a short reflection on the wisdom of our law; with other grave matters, which those will like best who understand them most.

"Thank ye, my lad," said the man, running in for his hat; then pausing for a moment, "Will you give evidence of what you saw if I should bring the fellow up before a magistrate?"

Herodotus indeed puts both poets 400 years before his own time; that is, at about 830-820 B.C., and the evidence stated above points to the middle of the ninth century as the probable date for the "Works and Days".

If I made the matter public, I have no evidence but moral evidence to bring forward.
