

Focus Group Interviews in Education and Psychology

As part of the District's goal to ensure effective, equitable, and efficient use of resources, Duval County Public Schools has implemented

a Student Information System

The district's student information system allows parents to access grades, progress reports and attendance. Focus will serve parents/guardians, students, teachers and administrators.

Teachers/Administrators/Students do not have to register. Current district username and password will allow access to Focus. If you are a parent to a DCPS student, then you must also register a separate parent account from your employee account using a personal email address.
