

Practical Approaches to Applied Research and Program Evaluation for Helping Professionals

Introducing the SLA 750 stereolithography solution, anchored by the SLA 750 and SLA 750 Dual – the world’s first synchronous, dual-laser stereolithography printer – delivering cost-efficient, high quality production manufacturing at up to 2X speed and 3X throughput. This solution includes our new Accura AMX Durable Natural material, the industry’s toughest production-grade SLA material, and our new PostCure 1050 system for high-volume post-processing, as well as factory-level integration through the Oqton Manufacturing Operating System (MOS).
