

Research Methods in Pharmacy Practice: Methods and Applications Made Easy

How was the world formed? Are there parallel universes? Why does time move forward but never in reverse? These are longstanding questions that have yet to receive definitive answers up to now. In research, these are called empirical questions, which ask about how the world is, how the world does work, etc. Suchâ€¦

by Imed Bouchrika, Phd

Whether you are a student whose goal is to complete course requirements or a researcher looking for funding, knowing how to write a research proposal is an important skill. If you have had experience writing a project proposal, you might think that they are the same. However, they are not. The standardsâ€¦
