

## Advanced Research Methods in Psychology

Intelligent

Clean Your PC with AI

"How to clean my Windows?" Let AI liberate your computer and save your time. In the new AI mode, Advanced SystemCare can make a personalized plan for you to scan and clear tons of junk files, unnecessary logs, and caches, leftovers from the third-party tools, browsers, including your Windows 10 system. It always learns from your optimization habits and PC performance status. Find out your PC problems and errors, then fix them all. A daily click brings you a fresh PC.

Clean up junk files in popular applications including newly added Dropbox, Steam, Java, Adobe Photoshop Lightroom, Spotify and MS OneDrive.
