

Hydrogen Peroxide - Medical Miracle: Hydrogen Peroxide: Medical Miracle (H2O2)

The artwork is an original painting done by Ed post-tour in 2019.

Ed turned to painting as a new and different creative outlet after heâ€™d finished touring his third album, *Divide*, to help him combat his feelings of uselessness.

On September 27th, 2019, Ed posted a photo of the painting on his Instagram. In the caption, he said:

Spent an entire month since tour ended painting, which Iâ€™ve never done before. Had so much fun doing it. If Iâ€™m honest I felt a bit useless once tour had ended, coz singing, writing and gigging is all Iâ€™ve ever known, so itâ€™s nice to find a new way to be creative.

This particular painting would later become the cover art of his 2020 single.
