

ICD-10-CM 2021: The Complete Official Codebook With Guidelines (ICD-10-CM the Complete Official Codebook)

ABC Coding Manual - 16th Edition ABC codes were designed to fill information gaps in administrative code sets used in the United States to process electronic healthcare claims. ABC codes are used outside the U.S. to manage healthcare costs and/or measure healthcare outcomes. Some countries have adopted U.S. electronic claim filing methods and use systems designed in the US to process healthcare claims. In those countries, ABC codes can be used side by side with medical codes rather than to supplement medical codes. +\$125 per person, one-time fee

Acupuncture Reimbursement Guide for 2022 InnoviHealth's Acupuncture Reimbursement Guides give you the coding, billing, and documentation support you need to get paid properly and keep it. With input from customers, coders, and auditors, we have combined all these needs into one great resource for professional services. Dr. Z's Cardiothoracic Surgery Coding Reference 2023 New Dr. Z's Cardiothoracic Surgery Coding Reference, written by physicians who are both clinicians and coding experts, is a comprehensive manual that guides the user through the appropriate coding of these complex operations involving the heart and chest. Open surgical as well as transcatheter procedures are covered. Some examples of the areas covered include: procedures of the lungs, coronary artery bypass surgery, valvular surgery, transplant surgery, ablations, TAVR's, pacemaker-defibrillators, aneurysm repair, congenital heart repairs and many more. The book simplifies coding by presenting illustrations and corresponding explanations, as well as coding guidelines. Clinical examples and references are also included. +\$400 per person, one-time fee

Dr. Z's Diagnostic & Interventional Cardiovascular Coding Reference 2022 Dr. Z's Diagnostic & Interventional Cardiovascular Coding Reference, written by physicians who are both clinicians and coding experts in this specialty area, is a comprehensive guide that directs the user through the appropriate coding and charging for complex cardiology procedures. It includes coding guidelines ranging from the simplest procedures, such as echocardiography,

to highly complex procedures involving multiple coronary artery interventions and electrophysiology. This extensive manual contains anatomical drawings, comprehensive coding and charging guidelines, as well as case examples to demonstrate how physician terminology translates to procedure codes. It also covers non-invasive and invasive procedures that may be performed by a cardiologist or in a cardiology department. Additionally, this cardiology coding book details coding guidelines for peripheral angiography and when it is combined with cardiac catheterization. +\$400 per person, one-time fee

Dr. Z's Interventional Radiology Coding Reference 2022 Dr. Z's Interventional Radiology Coding Reference, written by physicians who are also coding experts in this specialty area, is a comprehensive manual that details the appropriate coding and charging of these highly complex procedures. This book addresses both vascular and non-vascular procedures. The information is conveniently laid out by procedure type and anatomical site. This book details extensive instructions about the components included in each procedure, as defined by the coding rules for the appropriate CPT or HCPCS code. Dr. Z's Interventional Radiology book also discusses coding rules for both physicians and hospitals while pointing out differences in the rules (where applicable). Each section contains procedure examples to demonstrate the terminology that may be encountered in a report and how that is translated into selecting the correct procedure codes. +\$400 per person, one-time fee

Dr. Z's Pain Management Coding Reference 2023 New Dr. Z's Pain Management Coding Reference, written by Ruth Broek and Dr. Z, is a comprehensive manual that details the appropriate coding and/or charging for the many different types of pain procedures performed in a variety of settings. It discusses injection procedures to treat spasticity and other conditions that require injections of steroids, anesthetics, neurolytics, and chemodenervation agents. There are specific chapters covering injection procedures, neurolysis and chemodenervation, pain pump implantation and management, and neurostimulator implantation and management. There is also a section on anatomy to aid in determining the type of nerve involved so the appropriate code can be reported. It is laid out in a similar format to the other ZHealth reference manuals. Procedures are grouped by procedure type (e.g., nerve blocks, neurolysis, neurostimulators) and by anatomical area for convenience of use. This manual combines guidelines from multiple sources into one easy-to-use reference, including: the American Medical Association, the American College of Radiology, the American Hospital Association, the Centers for Medicare and Medicaid Services, the Society of Nuclear Medicine, and other reputable medical societies. +\$400 per person, one-time fee

Dr. Z's Vascular & Endovascular Surgery Coding Reference 2023 New Dr. Z's Vascular & Endovascular Surgery Coding

Reference, written by physicians who are both clinicians and coding experts in this specialty area, is a comprehensive manual that guides the user through the appropriate coding and charging for these highly complex procedures. Transcatheter and open surgical procedures are covered, as well as hybrid procedures that combine them. This book simplifies coding by presenting illustrations and corresponding explanations. The manual is also conveniently laid out by type of procedure, giving comprehensive coding guidelines for each type. Lastly, each section contains procedure examples to demonstrate the terminology that may be encountered in a report and how that is translated into selecting the correct procedure codes. +\$400 per person, one-time fee

Dr. Zâ€™s ICD-10-PCS Coding Companion for Interventional Radiology 2023 New The ICD-10-PCS Coding Companion for Interventional Radiology is intended to be used as a companion resource, providing ICD-10-PCS coding guidance for interventional radiology procedures. Every effort has been made to align each chapter in this reference manual in format and content with the Interventional Radiology Coding Reference from Dr. Zâ€™s Medical Coding Series. +\$400 per person, one-time fee

Evaluation & Management Comprehensive Guide - 3rd Edition The Evaluation & Management Comprehensive Guide â€” 3rd Edition continues the innoviHealth tradition of providing helpful tools and resources for healthcare providers. As Evaluation & Management coding undergoes the most significant changes in decades, our credentialed subject matter experts provide the keys to understanding the changes, how they should be documented and reported, and how to ensure your organization is prepared for them. +\$100 per person, one-time fee

ICD-10-CM and ICD-10-PCS Coding Handbook 2022 The ICD-10-CM and ICD-10-PCS Coding Handbook content reflects revisions of the Official Guidelines for Coding and Reporting as well as AHA Coding Clinic® for ICD-10-CM and ICD-10-PCS content published through June 2021. The handbookâ€™s format and style of presentation follows that of previous editions inspired by the Faye Brown approach to coding instruction. The text leads students to logical answers and provides primary supporting sources. This logical approach has enabled the Handbook to become the most popular textbook for hospital and physician office coder training. +\$600 per account, one-time fee
