

Prehospital Research Methods and Practice

UVA Prehospital Services Vision:

UVA Health System liaison to EMS, Fire, Law Enforcement and Communication Centers for education, quality assurance and feedback to assure excellence in patient care from first medical contact throughout their care within the Health System.

News:

The Prehospital program is currently both BLS and ALS accredited with the Virginia Office of EMS. The accreditation allows us to provide EMT classes as well as AEMT classes. We are very excited to continue to provide high quality EMS classes to our partners.

Parking located in back of building off of Lewis Street

Current Roles:

1. Feedback

Purpose: Agencies or providers that are seeking feedback regarding your patient outcomes to promote better patient care and knowledge can request feedback from Jmt8as@uvahealth.org

2. Outreach

Purpose: Extend hospital services/recommendations into the prehospital environment

3. Performance Improvement

Purpose: Collect data for registries and accreditation. Provide internal and external patient care feedback to agencies to improve patient outcomes.

Examples: STEMI feedback, Stroke Feedback, Trauma PI, Call sheet review, Be Safe

4. EMS Internal Representation and Advocacy

Purpose: Advocate for EMS within UVA Health.

Examples: QST Stroke Meeting, QST Cath Lab Meeting, Trauma PI, ED-C3 Emergency Dept Meeting

5. EMS Education

Purpose: To promote certification and re-certification of EMS members and agencies in line with national standards and hospital guidelines and initiatives.

Clients: EMS/Fire Agencies, dispatch centers and the general community in the Central Virginia area, with occasional extension in other geographic areas within Virginia.

Types: Initial EMT and AEMT Classes (State Accredited), regional/state/national conferences, Stress First Aid, STEMI Showdown and any other EMS/community educational needs
