

Top 300 Drugs Pocket Reference Guide (2021 Edition)

COVID-19 Community Levels Map Update, Jan. 6, 2023: The Centers for Disease Control and Prevention has listed six Connecticut Counties—Hartford, Litchfield, Middlesex, New Haven, Tolland, and Windham Counties—in the High/Orange category as part of its weekly COVID-19 Community Levels update. Only Fairfield, and New London Counties are listed in the Medium/Yellow category. Because all eight Connecticut counties are either in the High or Medium categories, the Connecticut Department of Public Health recommends that all residents consider wearing a mask in public indoor spaces. People who are at high risk for severe illness should consider additional measures to minimize their exposure to COVID-19 and other respiratory illnesses. Visit the CDC COVID-19 Community Levels Map for updates.

Please visit covidtests.gov to request four free COVID-19 self-test kits from the Federal Government. Find a location that has a supply of COVID-19 therapeutics as part of the Test to Treat initiative [here](#). The complete DPH COVID-19 toolbox is located at ct.gov/coronavirus.
